Scott Hartranft Named CFO of Infinite Legacy

Bringing 25 Years of Finance Experience to the Baltimore-based Nonprofit

January 29, 2024 - Infinite Legacy, the local nonprofit organ procurement organization (OPO), is pleased to announce the appointment of Scott Hartranft as vice president and chief financial officer. With more than 25 years of professional experience, Scott recently served as the chief financial officer and treasurer at Southeastern Universities Research Association (SURA) in Washington, DC and at the National Committee for Quality Assurance (NCQA) prior to that. Scott received his master's in business administration from Loyola University Maryland and completed The Leadership Journey at The Wharton School. He is also a certified public accountant (CPA) in the state of Maryland.

Hartranft's appointment at Infinite Legacy is a testament to his extensive experience and expertise in the field of finance. His leadership and financial acumen will be instrumental in driving the organization's growth and success.

"We are thrilled to welcome Scott to our team," said Charlie Alexander, president and chief executive officer of Infinite Legacy. "His wealth of experience and knowledge will be invaluable to our organization as we work to save more lives through organ, eye and tissue donation."

In his new role, Scott will be responsible for overseeing the company's financial operations, including accounting, budgeting and planning. He will work closely with the senior leadership team and the board of directors to develop and implement strategies that allow the organization to maximize the number of lives saved through donation while maintaining financial health.

Infinite Legacy serves almost 10 million people in Maryland, Northern Virginia and Washington, DC. We facilitate organ, eye and tissue donation and educate people about the critical importance of registering to be a donor. Infinite Legacy works with 68 hospitals and eight transplant centers to decrease the number of people waiting for a lifesaving transplant.
